

CHURCH CENTER DOWNLOAD INSTRUCTIONS

CHURCH CENTER APP

One thing we are really excited about is the Church Center App that integrates with Planning Center, a software our church already uses for coordinating volunteers, kids check in, and event registration.

We are encouraging everyone with a smart phone to download the app, as it will make registering for upcoming events even easier than before.

DOWNLOADING/USING

- Download the app via the [App Store](#) / [Google Play](#).
 - If you don't have a smart phone you can also [Access online](#)
- Set Wellspring Church as your location by either allowing the app to use your current location or searching manually.
- The app will ask you to log in with a phone number
 - Enter your mobile phone number
 - If you have used this phone number to register for any Wellspring event in the past it may recognize you - confirm that it is you
 - If it does not recognize you or mistakes you as another person in your household, follow the prompts to correct the information
- Now that you are logged in you'll be able to:
 - Continue to correct or add details to your personal profile
 - Register for Events with all your stored information already plugged in
 - See upcoming events
 - In the fall: Search for connection groups, pre-check in kids once Wellspring Kids begins again, give directly through the app, etc.
- We will continue to provide instructions as we add more integrations or utilize new features
- Here is a [brief video](#) walking through the process outlined above.
